Professional Profile

Senior Software Engineer with 4+ years of experience in designing, developing, and optimizing scalable web applications across diverse industries. Strong expertise in backend systems, RESTful API development, and cloud-based architectures using Node.js, PHP/Laravel, and Python (FastAPI). Proven ability to improve system performance, reduce error rates, and deliver high-quality solutions under tight deadlines. Adept at collaborating with cross-functional teams, mentoring developers, and implementing best practices for maintainability and scalability.

Career Summary

11/2025 – present Nextbridge Ltd. (PK): Senior Software Engineer

Developing and maintaining scalable full-stack web applications using modern frontend and backend technologies. Leading architecture design, cloud deployments, and performance optimization initiatives.

- Full-stack development using React.js, Next.js, Vue.js, Angular, Node.js, and FastAPI
- Designing scalable system architecture and database schemas
- Managing AWS infrastructure (EC2, S3, CloudFront, IAM) and CI/CD pipelines
- Designing scalable system architecture and database schemas
- Integrating third-party APIs and complex business logic
- Mentoring junior developers and conducting code reviews

Key achievement: Improved system performance and reliability across multiple production applications through optimization and architectural improvements.

01/2024 – 11/2025 Nextbridge Ltd. (PK): Software Engineer

Built and maintained robust web platforms using MERN, Laravel, and FastAPI technologies, focusing on performance and scalability.

- Developed RESTful APIs and integrated third-party services (payments, analytics, social platforms)
- Deployed backend systems on AWS infrastructure
- Optimized database queries and application performance
- Integrated QuickBooks with Laravel, improving data synchronization efficiency

Key achievement: Achieved 75% reduction in error rates and 85% improvement in client satisfaction through performance optimization.

01/2023 – 01/2024 Nextbridge Ltd. (PK): Associate Software Engineer

Worked on web platforms using PHP/Laravel and React, contributing to scalable systems serving high user volumes.

- Developed and maintained web applications using Laravel and MySQL
- Built REST APIs and frontend interfaces with React.js
- Collaborated with cross-functional teams under Agile methodologies
- Performed testing, debugging, and performance improvements

Key achievement: Contributed to systems serving 100,000+ users with improved reliability and performance.

10/2022 – 12/2022 Nextbridge Ltd. (PK): Trainee Software Engineer

Gained hands-on experience in web development, focusing on backend systems and API development.

03/2022 – 09/2022 The Game Storm Studios (PK): Software Engineer

Developed and optimized multiple games using Unity and C#.

- Built 5+ games with features including UI, animations, physics, and AI
- Improved performance and reduced loading times
- Fixed bugs and enhanced gameplay experience

Key achievement: Increased frame rate by 60% and reduced loading time by 40% across multiple games.

06/2021 – 09/2021 Idee Games (PK): Game Developer

Worked on game development projects using C# and Unity, contributing to gameplay features and debugging.

Further Details

Education: BSc Computer Engineering – University of Engineering and Technology, Lahore (2022)

Key IT skills: Node.js, Express.js, PHP/Laravel, Python (FastAPI), React.js, Next.js, Vue.js, Angular, MongoDB, MySQL, AWS (EC2, S3, CloudFront), REST APIs, CI/CD, Git, QuickBooks Integration

Languages: English (full professional proficiency), Urdu (native)

Hobbies: Software development, exploring new technologies, problem solving, content creation
